

Tickets for Qmatic printers

User case

The entry point in the customer journey is often the Qmatic ticket kiosk. High quality tickets is a priority in order to secure a good customer experience, without paper jam or tickets that are hard to rip off.

Our tickets have been used with thousands of Qmatic kiosks for >10 years in large volumes. The tickets are essentially identical to the original Qmatic tickets.

For volumes >2.000 ticket rolls, customized logotype/text on the back side of the tickets is available free of charge.
